

28th IEEE Signal Processing and Communication Applications Conference (SIU 2020) Call for Special Sessions

The proposals (upto 3 pages) can be sent in PDF format via e-mail to siu2020@medipol.edu.tr with the title "SIU 2020 Special Session Proposal". The deadline for submission is 5pm (GMT+3), December 13th, 2019. The proposal should include the following information:

- **Title and Abstract:** It should include the title and abstract of the special session in about 100 words. This abstract should contain enough details for the participants to understand the topic and objectives of the session and make a decision to participate.
- **Reason:** It should explain why the proposed topic should be a special session, its innovative aspects, and why it should be held this year. It should also state why this topic concerns the SIU community.
- **Speakers:** A list of talks and speakers (if any) should be provided. These speakers may participate panel discussions or give keynote-like presentations, without submitting a regular paper.
- **Referees:** A list of potential referees should be provided in order to evaluate the papers to be sent to the special session.
- **Biographies:** Short biographies and CVs of proposers should be attached to the proposal.

The timing of the proposed topic, the relevant work of the organizers and speakers, and what value the session will add to SIU2020 will be the main criteria in the evaluation of the proposals. The evaluation results will be announced by December 20th, 2019.
